

NCDF Group – 2024 Global Impact Metrics Report

The 2024 Impact Metrics Report provides a comprehensive overview of the measurable progress achieved by the Nigerian Capital Development Fund (NCDF Group) over the past year. As a mission-aligned development finance institution, NCDF continues to lead with purpose, bridging capital with national development priorities. This report presents key metrics across housing, employment, innovation, energy, and social investment, illustrating how we deliver sustainable value for communities, investors, and government stakeholders alike. The data herein reflects our strategic focus on high-impact sectors, ESG compliance, and the United Nations Sustainable Development Goals (SDGs).
